

Student feedback from my most recent courses at the Institute of Behavioural Science, University of Helsinki.

Helsinki Summer School on Activity Theory and Formative Interventions, August 2010 (Annalisa Sannino, first on the right side)

Feedback on the class “Competences in and for work”, which I taught for the first time in the Spring of 2010, with 87 students

“Overall, the whole module was interesting. I just want to give special credit for Annalisa Sannino for the high quality of teaching. I have studied in two European universities before coming to the University of Helsinki and I am finishing my Master’s this spring. I have studied for four years now in Helsinki and this module was the FIRST that have reached the standards of the Universities in France and England. Thank you for a wonderful experience!”

“Suoraan sanottuna olen inhonnut tätä kurssia. Nyt taisi olla neljäs yritys koittaa kestää istua luennoilla ja tällä kertaa onnistui hyvin. Nyt oli todella hyvin järjestetty opetukseltaan paras. Jonka tällä laitoksella olen kokenut. Huolimatta siitä, että inhoan tuota organisaatio/kompetenssi - potaskaa.”

“To tell you the truth, I have hated this course. This was probably the fourth time I tried to tolerate it and sit through the lectures, and this time it worked well. This was really well organized, the best teaching I have experienced in this department. In spite of the fact that I loath that organization/competence rubbish.”

“Annalisa Sannino oli loistava luennoitsija, joka osasi motivoida yleisönsä. Osuvat ja hauskat esimerkit elävöittivät aihepiirin käsittelyä.”

“Annalisa Sannino was an excellent lecturer who was able to motivate her audience. The examples were to the point and funny which made the treatment of the topics lively.”

“Thank you Annalisa for excellent course! I loved every minute of it. You are a very inspiring lecturer who makes students enjoy attending the lectures. Materials pointed out during the classes were really good, especially the most current materials were interesting. Thank you for the classes!”

“Annalisa Sannino rules ok! Todella mainio tyyppi, ei aina ehkä kovin selkeä, mutta tosi innostava. Sai hauskailla opetustyyllillään, jopa hiukan kiinnostumaan aiheesta. Oli vain niin valovoimainen kotoisiin suomalaisiin luennoitsijoihin verrattuina, että kävi heitä hiukan sääliksi. Mutta mukavia olivat hekin.

“Annalisa Sannino rules ok! Really a wonderful fellow, perhaps not always quite clear but really inspiring. With her fun style of teaching she even got me to get a bit enthusiastic about the topic. She was just so radiant compared to the Finnish lecturers that I felt a bit sorry for them. Buy they were nice, too.”

“Luennot olivat erittäin kiinnostavia, opettaja innostava ja selvästi kiinnostunut meidän oppimisestamme!”

The lectures were very interesting, the instructor was inspiring and clearly interested in our learning!”

“Opettaja oli erittäin ammattitaitoinen ja motivoiva. Vaikka opetus tapahtui englanniksi, tulivat vaikeimmatkin asiat ymmärrettäväksi. Opettaja käytännössä varmisti jatkuvasti hahmottavatko oppilaat opettavan asian ja hän pyrki mm. erilaisten esimerkkien avulla avaamaan asioita ymmärrettävämpään muotoon. Olin erittäin tyytyväinen opetukseen, jossa myös pyrkimys vuorovaikutukseen näkyi kiitettävästi.”

“The instructor was very competent and motivating. Although the instruction took place in English, even the most difficult matters became understandable. The instructor checked continuously in practice whether the students grasped the issues taught and she strove to open them up, for instance by means of different examples. I am very satisfied with the instruction in which also efforts for interaction were undertaken in a commendable way.”

“Annalisa Sannino on opettajana innostava ja hän toi ilahduttavalla tavalla esimerkkejä käytännön elämästä selkeyttääkseen teoreettisia käsitteitä ja malleja.”

“Annalisa Sannino is an inspiring instructor and she brought in in a delightful way examples from practical life to clarify theoretical concepts and models.”

Feedback from the Change Laboratory class, Spring 2010, with 12 students

“I found your course very interesting. Thank you so much for all the effort that you had put in to it. I especially liked the tasks and the well-chosen guest lectures that gave to me a depth to my learning and understanding.”

“I found this course very important for getting more understanding about the process of work development. It is in key position to connect theory and practical work development process.”

“Excellent teacher! Very motivating and had invented a very innovative and interesting way to teach the class. Her idea to combine the course to an actual case was very interesting to a student. I think she wants the students to learn from practice as much as possible. Demanding but very fair teacher.”
