Re: MS: 1066709633621627

Subgroup analysis of large trials can provide valuable information: a case study of vitamin E and pneumonia

Harri Hemilä and Jaakko Kaprio

Trials

Dear Dr Hemilä

Thank you for considering Trials for your manuscript (above). Peer review of your manuscript is now complete and, in the light of the reports, I am sorry to say that we cannot consider the manuscript for publication and are closing your file. The reviewers' comments are accessible in PDF format via the links at the bottom of this email. Please contact systemsupport@biomedcentral.com if you have any problems opening the files.

If at some stage you are able to fully address all of the referees' concerns, you may wish to consider submitting a new manuscript to Trials. If you are able to do this, a full covering letter, explaining the revisions made, should accompany the submission.

Thank you for your interest in Trials.

Editors-in-Chief: Doug Altman, Curt Furberg, Jeremy Grimshaw and Peter Rothwell
