Reviewer's report

Title: Zinc lozenges may shorten the duration of colds: a systematic review

Version: 1 **Date:** 26 May 2009

Reviewer: Ananda Prasad

Reviewer's report:

No revisions required.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests.

HH:

This reviewer considers that the "findings are important."

However, the reviewer has no specific comments.

Although this means that the reviewer does not identify any errors in the manuscript, the lack of any specific comments also means that the reviewer does not point out any strengths of the manuscript.
