

Studies from children's perspectives

Su-Chu Lai(萊素珠)

Assistant Professor

Chang Gung University of Science and Technology

I believe...

- If we know much about children, we will do better for them.

What are children's perspectives?

- What do they say?
- What do they think?
- ...

Study : Play and work

- When children finished their activities, ask them: Are you playing or working? Why?
- **Results** : 幼兒認爲的遊戲是（1）是不是能玩？（2）活動的主導權（3）努力的程度…
- 討論：遊戲的價值—幼兒觀點

最近研究

- **Two-year-olds' transition from home to preschool: An mesosystem study.**
- **Preschool Adjustment of a New Immigrant Resident Family Child: The Dyad Perspective**

Child as an agent

Study for future

- **Rogoff「引導式參與」(guided participation):** 成人及同儕引導兒童全心參與文化價值活動的角色
- **策略行動(strategic actions):** 互動過程中幼兒如何因應成人的引導(coping strategy)，藉由分析互動內容下幼兒的策略行動，嘗試發現幼兒如何調整自己或影響他周遭的世界

Thank you!
